Plus Benefits

Be a part of a structural change that aligns Information Management with the **Delivery of Health Care**

About DHS

DHS is the second largest municipal health care system in the nation and serves the County's 11 million residents. DHS operates two Level 1 trauma centers & a specialized burn unit, and provides acute and rehabilitative patient care. Health Information Management (HIM) is comprised of the men and women working throughout our health system at all hospitals with the purpose of coding, maintaining, and safeguarding medical records for our patients; supporting our clinicians; and modernizing health information processes. Health Information Management professionals are stepping up to take information resource management roles in an electronic healthcare environment. Get involved with building the capacity of information management and sharing. Be a part of a structural change that aligns HIM with the delivery of care to improve quality, control costs, and enhance the efficiency of the system. Contribute to what matters: improved business processes, enhanced transactions, and strong leadership.

About Rancho Los Amigos National Rehabilitation Center

For more than 125 years, the clinicians at Rancho Los Amigos National Rehabilitation Center (Rancho Los Amigos) in Downey, California, have been on a mission to restore health, rebuild life, and revitalize hope for persons with a life-changing illness, injury, or disability. Rancho Los Amigos is recognized as an international leader in rehabilitation medicine and clinical research, and since 1989, the hospital has been consistently ranked as one of "America's Best Hospitals" in Rehabilitation by U.S. News and World Report. As one of the largest rehabilitation hospitals in the United States, Rancho Los Amigos cares for approximately 4,000 inpatients each year, and services 71,000 outpatient visits each year.

Now Recruiting for Health Information Management Director at Rancho Los Amigos

Services Provided for the Benefit of our Patients

- Inpatient and Outpatient Coding: Using ICD-10, CPT-4, ICD-O and HCPCS coding classifications to translate clinical documentation into the appropriate codes for the purpose of state reporting, statistical reporting, and billing
- Release of Information: Evaluating, processing, and tracking requests for protected health information from patients, government agencies, other medical institutions, and/or legal entities
- Management of a database of unique identifiers assigned to each individual patient to ensure that a patient's medical records are consistent, accurate, current, and complete across clinical and administrative units
- Safeguarding and Storage of Protected Health Information: Indexing, scanning, storing, and safekeeping protected health information in accordance with county, state and federal laws
- Public Information: HIM staff also fills the important role of welcoming and guiding patients, families, and visitors to our health system in a patient-centered, customer-friendly manner

The Ideal Candidate

In addition to the required certification and work experience, the ideal candidate for this position will also:

- Possess excellent communication skills to be able to address a wide group of stakeholders including elected officials, regulatory compliance agencies, executive management, organized labor leaders, line staff, and patients
- Have a proven track record of working with employee labor unions and employee associations to resolve complex public personnel management issues
- Demonstrate core competencies in the fields of medical record coding, release of information, privacy laws, and organizational management
- Have extensive experience in the education, on-the-job training, and mentoring of personnel in fields ranging from clerical to advanced medical record coding and management
- Ability to prepare written and visual reports for presentations to hospital administrative and clinical leadership, as well as to governing bodies
- Demonstrate the knowledge to organize the management of various units within the HIM Division of the hospital to ensure excellent customer service to patients
- Exhibit strong leadership skills to handle day-to-day operations while simultaneously and continuously developing strategic plans and best practices to adapt to changes in the laws governing health information management
